Hi, my name's Omar. Every year, my family goes camping in Siwa Oasis in the Western Desert. This year, I recorded a video of our trip for the first time. It's really hot in the desert, so we always put on sunscreen during the day! My little sister likes to help Dad put up the tent but she can't do it. She's only four! We sometimes go hiking in the early morning because it's cooler. There are also places where we can go swimming. We always take a lot of water to drink, and we usually have a picnic for lunch. In the evening, we cook dinner on a fire. This is my favorite part of the day. I like looking at the stars in the night sky while mum tells us stories. It's fun!

Read the passage and answer the following questions:

Do you wonder what life was like before electronics? How did people keep their food cold without a fridge? How did they clean their clothes without a washing machine? It seems like life would be very difficult without these things, or even dangerous. For example, they didn't have electronic ovens a hundred years ago, so they probably cooked food using a wood fire. I guess it was quite dangerous, but at least they were able to make a hot meal. They didn't have any lights, either, so they had to use candles to see in the rooms at night. And how did they get news without a radio to listen to or a television to watch? I think I prefer life today, to be honest.

Nocturnal animals sleep in the day but we are awake at night. They look for food when it is dark. Other animals like camels and donkeys are diurnal, which means they are awake in the day.

Choose the correct answer from a, b, c or d:

My name is Emily. I live in Canada. When it’s warm out, people have a picnic in the park. We have a lot of green spaces in my city, but the only problem is that it rains a lot. So, when it’s raining, I go swimming. The pool is indoors.

Listen and answer the questions:

We live in a community and we should help the people who live in it. Being a volunteer is a great way to help your community. You can learn new skills, make new friends, and make your neighborhood a better place.

Listen and answer the questions:

It is useful for some animals to be nocturnal, because they can hide and find more food. People are causing problems for nocturnal animals because there are more lights in cities, and less darkness.
